

ISyE 6739 — Summer 2009

Homework #9 (Covers Modules 36–40) — You don't have to turn this in!

All of the following problems are from Hines et al. Do as many as you can.

11–1, 11–2, 11–7(a), 11–12, 11–15.

If you have some extra time, pick a couple problems from the beginning of the regression chapter.
