

Homework: Logistics Overview (Week 2)

1. Question 13, page 49 of Business Logistics Management by Ballou.

Clearly show your calculations and summarize your conclusion. The average inventory can be approximated by half the shipment size. Your presentation materials should be limited to a maximum of two presentation slides.

Remember to be clear and succinct and to have a professional page layout.

This homework is due on Thursday, September 7, 2000 at the beginning of the class period. Be prepared to present and discuss your answers during the class period. Prepare a maximum of two overheads to show your answer to the questions (you do not have to hand these overheads in). Prepare a paper copy of the overhead (one or two overheads to a page) which you have to hand in if your team is presenting.
